### **Drill Team Update**

Early in day weather was good enough that drill team went to SPOTSA site and worked on HRC, work continued until mid-afternoon until weather deteriorated.

- Main hose reel motor/gearbox issues were repaired now main hose reel is ready for drill season.
- Great strides have been made in sorting out operating system. Lots of little problems were solved and we are in good shape. Thanks a million Justin!
- Ryan Venturelli's work is completed on the sediment lab and the lab has been turned over to the traverse. On a side note, the drill team is going to do some outside repairs on one end of the Sediment lab to strengthen it up for transport.
