

SALSA ON ICE REPORT: 23 November 2018

Weather:

Weather conditions, mostly clear, winds 10(knots), temperature high -8C

SALSA Drill Team members on ice: Graham Roberts, James Roth (McMurdo) Dennis Duling, Jonas Kalin (South pole)

- Helped the traverse team load and strap cargo
- Received replacement batteries for 7 UPS devices, started installation
- Both drill computers on ice and in working order

Cargo: DNF Crate to arrived

Note: Happy Thanksgiving! The morning was spent with the traverse team making final preparations for estimated Monday departure. I am happy to report that both of our drill computers are now in my possession and are working. The batteries for the UPS devices also arrive today and installation has begun.

UPS Devices waiting to receive new batteries

Drill computers.....
