

SALSA ON ICE REPORT: 28 November 2018

Weather:

Weather conditions, mostly clear, winds calm, temperature high -2C

SALSA Drill Team members on ice: Graham Roberts, James Roth, Dennis Duling, Jonas Kalin

- Continued work on the encoder display power and signal
- Meet with Rebecca to discuss updated timeline for field season
- Continued work on DNF packing

Traverse: Day 3 of traverse to SALSA camp

Note: The only thing left for us to do in MCM is preventative maintenance on our DNF (Network system and sensors). We will also spend time making plans for the field so that no time is wasted upon arrival. The reduced timeline is making me nervous and I hope that we can send at least a few drillers to the field on the initial put-in flight.
