

SALSA ON ICE REPORT: 29 November 2018

Weather:

Weather conditions, overcast, winds 5(knots), temperature high -6C

SALSA Drill Team members on ice: Graham Roberts, James Roth, Dennis Duling, Jonas Kalin

- Spent some time understanding encoder displays and setup
- Reviewed our deck setup and ice core systems
- Finalized DNF packing, it is ready for flight to the field

Traverse: Day 4 of traverse to SALSA camp

Note: Making plans for the field so that no time is wasted upon arrival. Still trying to see where we can make-up time due to the reduced timeline. Getting drillers to the field on the first flight is critical to a successful season.
